WHAT WE DO

At AWC, we offer specialized at-home and facility-based treatment for hard-to-heal open wounds.

By assessing these wounds sooner and more efficiently, we address underlying issues proactively and reduce hospital readmissions.

Unlike home health services, AWC services can be ordered with just a consult, eliminating the need for detailed home health orders, in-person forms, and other paperwork.

WHO WE SERVE

Our medical staff works closely with inpatient wound care physicians and home care agency staff to ensure seamless and comprehensive care for our patients.

We provide wound care services across various settings, including Hospital at Home, Home, Assisted Living Facilities, and Skilled Nursing Facilities.
