

Is leg pain keeping you from the activities you enjoy?

Vascular Vein Centers can help you get a leg up on life!

Having healthier legs is important and can be much more than a cosmetic issue.

- Do you have tired, heavy-feeling legs?
- Leg pain from prolonged sitting or standing?
- Swollen ankles at night?
- Varicose or spider veins?
- History of vein problems in the family?
- Discoloration of the skin?
- Tingling, burning or cramping in the legs and feet?

At **Vascular Vein Centers**, we want you to have healthy legs that feel good and that you feel good about- inside and out.

To make an appointment at any of our six locations or for more information, please give us a call.

Deep veins of the leg Deep vein thrombosis Pulmonary Embolus

Deep vein thrombosis (DVT) is a condition where prompt treatment is critical to prevent potentially life-threatening complications. If you have DVT signs and or symptoms, contact the specialists at Vascular Vein Centers right away.

DVT Signs & Symptoms

- Unexplained swelling, especially after a long trip, operation or if you have cancer
- New aching of a leg, usually mild to moderate; worse when standing
- New swelling after leg injury or during convalescence
- Skin might look stretched and shinny
- Area may or may not be painful; may be more painful walking
