There's Just So Much Going at Waterman Village!

If you have visited the Waterman Village campus recently, you probably noticed that all the streets have been re-paved and re-surfaced with fresh asphalt. This

investment enhances the already beautiful appearance of Waterman Village. Soon, we'll be demolishing the existing gatehouse, and constructing a brand new one.

Construction will soon begin on a brand new Estate Home as we welcome two new couples to Waterman Village. One couple is moving here from Reston, Virginia, and the other couple is from nearby Leesburg, Florida.

In addition, AG Architects from Wisconsin has been selected to help Waterman Village explore the idea of adding additional residential living units (Estate and Apartment Homes), complete with their own activity and dining areas, across from our existing main entrance. We are already adding people to this wait list. We'll keep you posted on developments with this exciting project.

Come and see the new CVS Pharmacy at Waterman Village! It's open to the public. And just like the good ol' days, you can actually get to see and know your pharmacist, enjoy a scoop of delicious ice cream while you're there, pick up some greeting cards and stamps and do a little shopping.

In Their Own Words

We are pleased to share this recent review that Waterman Village received on www.senioradvisor.com:

We feel we have found the best of all worlds here at Waterman Village. After living here for 1 1/2 years, we are very pleased with the many choices we have – home styles, dining choices, activities, fitness programs, etc. Everyone is very helpful and friendly – administration, all staff, and the residents. This truly is a "village" and feels very much like home. It also helps that we are located in the lovely city of Mount Dora in beautiful Lake County. When we first started our search for a community like this in Florida we had booked several appointments but knew from the first time we visited here that this was the place for us, and we have had no regrets.
