

10 THINGS YOU CAN DO TO MANAGE YOUR COVID-19 SYMPTOMS AT HOME | COVID-19 |

If you have possible or confirmed COVID-19

1. **Stay home** except to get medical care.

6. **Cover your cough and sneezes** with a tissue or use the inside of your elbow.

2. **Monitor your symptoms** carefully. If your symptoms get worse, call your healthcare provider immediately.

7. **Wash your hands often** with soap and water for at least 20 seconds or clean your hands with an alcohol-based hand sanitizer that contains at least 60% alcohol.

3. **Get rest and stay hydrated.**

8. As much as possible, **stay** in a specific room and **away from other people** in your home. Also, you should use a separate bathroom, if available. If you need to be around other people in or outside of the home, wear a mask.

4. If you have a medical appointment, **call the healthcare provider** ahead of time and tell them that you have or may have COVID-19.

9. **Avoid sharing personal items** with other people in your household, like dishes, towels, and bedding.

5. For medical emergencies, call 911 and **notify the dispatch personnel** that you have or may have COVID-19.

10. **Clean all surfaces** that are touched often, like counters, tabletops, and doorknobs. Use household cleaning sprays or wipes according to the label instructions.

DON'T DELAY: TEST SOON AND TREAT EARLY

| COVID-19 |

If you are at high risk of getting very sick from COVID-19, and test positive, treatment may be available.

Get tested as soon as possible after your symptoms start.

Contact your healthcare provider right away if your result is positive.

Don't delay. Treatment must be started early to work.
