PRIMARY & SPECIALTY CARE

Bringing the Doctor's Office to You

Why Choose Mobile Medical?

Mobile Medical is a full-service primary care practice that visits and treats eligible patients with a focus on comfort and communication. Our providers establish close relationships with patients and a deep understanding of their social and clinical needs.

- Flexible home, clinic, and/or telehealth visits are available
- Personalized care with broader access to solutions
- Reduced risk of hospitalization
- Seamless coordination with specialists and community resources
- Personalized care brought to you

Primary & Specialty Care Services

- **Primary Care:** Personalized visits tailored to individual health needs.
- **Pain Management:** Non-opioid treatments for acute and chronic pain. Provider-driven physical therapy protocols to improve patient outcomes.
- **Psychiatry & Behavioral Health:** Medication management and counseling through psychotherapy available.
- **Wound Care:** Specialized treatment to promote healing and prevent complications.

Comprehensive Health Services

- **Transitional Care Management (TCM):** 30-day targeted care for patients after recent hospitalizations to prevent readmissions.
- **Chronic Care Management (CCM):** Education and resource support for patients with chronic health conditions, providing 24/7 access to chronic care provider.
- **Remote Patient Monitoring (RPM):** Vital signs are monitored daily, with providers alerted immediately to any detected abnormalities.
- **Annual Wellness Visit:** Annual preventive screening exam for healthcare assessment and resource allocation.
- **GUIDE Dementia Management:** Our comprehensive dementia program includes patient care, integration with support services, as well as caregiver support, education, and respite assistance.

Coordinated Services

- **Medical equipment:** Oxygen therapy, walkers, wheelchairs, hospital beds, etc.
- **Home Health Coordination:** Nursing, social work, IV antibiotics, physical, occupational & speech therapy
- **Laboratory & Diagnostic Services:** Lab tests, EKGs, ultrasounds, X-rays and more—performed at home.

Stay connected to your health with our Patient Portal!

We've put your health information at your fingertips. Our Patient Portal is designed to provide easy access for patients and their families, all in one place.

In the portal you can:

- Access lab results
- View provider visit notes for patient reference
- Update any contact, allergy and insurance information
- View educational materials for patient diagnosis
- Request refills
- Receive Email alerts for any new information including refills
- View and pay your bills
- Communicate with Mobile Medical (we recommend calling our offices with any immediate or urgent needs)
