

Better Health
Starts with Great Primary Care

vipcare

www.getvipcare.com

“She spent time with you. She wasn’t hurry up walk in the door, how you doing, then out the door. She spent time with you, listened to you, listened to what you had to say.”

~ Barbara G.

The VIPcare Difference, It’s About Time

At VIPcare, you’ll notice many differences compared to other doctor experiences you may have had in the past. To us, it’s about time.

More Time With Your Doctor

- Short Wait Times
- More Time to Care
- More Time to Listen

Our providers only see eight to ten patients a day, ensuring you get the quality time you deserve with your doctor.

Time For A Better Experience

- Same-day Urgent Care
- 24/7 On-call Provider
- Telehealth Appointments Available

Your health is our priority! We will accommodate your schedule and your needs to ensure you get the care you deserve.

Time For Better Health

- Preventative Care Mindset
- Chronic Disease Management
- Health Care, Not Sick Care

Better care leads to Better Health. And that takes more than just a 15-minute appointment. It takes time. More time with your doctor. More time to care. More time to listen.

Specialized Care Just for You

At VIPcare, we take a whole-body approach to caring for you and your health.

We don't just treat symptoms. We provide comprehensive care that gets to the root cause. Our goal is simple: we want to get you healthy and keep you healthy.

Here's what you can expect from VIPcare!

- ✓ We will see you in the office for four check-ups per year
- ✓ Our schedule will always be open when you need to be seen – **Just Call Us!**
- ✓ We are on call for your urgent care needs – both nights and weekends **Call Us First!**
- ✓ We will conduct an annual wellness and comprehensive health review
- ✓ We use a Screening Test Evaluation Program (STEP) for early detection of disease

“She eliminated five doctors for me, and she took care of everything that was aching from head to toe...”

~ Daniel P.
