

LIVING YOUR BEST LIFE™

## MEMORANDUM

**To:** ALL RESIDENTS & STAFF  
**From:** ANDREW DUJON, President/Chief Executive Officer  
**RE:** Foliage, Outpatient Therapy Clinic, & More  
**Date:** February 5, 2026

Good afternoon,

I hope this finds you all doing well! The weather this last week has taken a serious toll on the foliage around campus. While much of it looks dead, not all of it will be. We are going to review the plantings, and if we find the main structure is still intact, we will cut the plants back and allow them to regrow. So, things are going to look a bit dreary over the next couple of weeks as we check things out. In the meantime, we are also working directly with TNT to develop a plan to remove what is dead and replant when the weather has returned to normal.

You may have seen an email earlier today from the Waterman Village Outpatient Therapy Clinic talking about Lymphedema. Waterman Village is one of only a few places that can offer Lymphedema Therapy, and we are fortunate to have four certified therapists working directly for us, ready to assist you with this treatment. Let your physician know that this valuable service is available in your own backyard.

The Foundation, in conjunction with Sondra Luebke and Carol Holec, provides a meal to the Mount Dora Fire and EMS staff each year around Valentine's Day. This year, they will deliver the meal on February 12 thanks to a generous donation from Hillcrest Insurance. There are cards at both the Lodge and the Grand for you to write a word of thanks to these special folks who are here helping you or your neighbors every day.

The Lodge will be closed on Sunday, February 8, due to construction in the main hallway and the Wellness Center. Please refrain from trying to access the Lodge and Wellness Center this Sunday.

The Grand Patio and Pool Deck areas will be closed to all traffic from February 9 through February 16 for repairs. It will take a week to clean, repair, resurface, and cure the area.

As a reminder, if you are sick, please do not enter dining venues or other public spaces. You can call for meal delivery, and we will be happy to bring it right to your door.

You may have noticed that whenever you go to a restaurant or receive a service, they eventually ask you to leave a Google review. Google reviews are very important for Waterman Village, too. When people are looking to make a purchase, they tend to read reviews before deciding. The same goes for deciding whether to move to Waterman. Your reviews can help in this process. There are QR codes all around campus where you can scan and enter a review. That review could lead to a new neighbor joining our community. Have a wonderful day!

A handwritten signature in black ink, appearing to read "Andrew Dujon".
